

Creative Solutions for Marine Debris Prevention in the Arctic

Art is a universal medium that can serve as a catalyst to build understanding of difficult issues. Most importantly, this project will encourage artistic expression in finding solutions to what can be done to make our ocean cleaner for current and future generations.

The Seal and the Sea Turtle is a music fairy tale about plastic in the ocean, after an concept idea of Professor Darrell Bailey, USA. Commissioned for Orgelkids Taiwan Summer Music Camp, 2020. Adapted from the Pop-up book; *Our Plastic Ocean, Our Clean Ocean*, by Hermina Din and Astor Lai. The story was originally written in Greek by Despina Moysidou. The Swedish composer Erland Hildén composed the 24 pieces of music for Do-organ or Orgelkit. The Do-organ on this video was kindly offered by Orgelkids Sweden and Göteborg International Organ Academy.
